

All Crescent House Residents

05.05.2023

Dear Crescent House Resident

Notice under Article 13 of Application for Planning Permission

I write enclosing a Notice under the above regulations to inform you of the submission of an application for detailed planning permission on behalf of the City of London.

The proposed description of development is as follows:

“Repairs and minor alterations to the existing windows and window framing at first, second and third floor levels of Crescent House, including: stripping, repairing and redecorating existing window frames; replacement of existing single-glazing with vacuum glazing panels; insulation works to the main concrete vaulted roof and first floor concrete soffit; and associated works”.

The application was submitted on the date of this letter, so it will not immediately be able to be viewed on the City of London’s website. It is likely that the Council will validate the application within the next two weeks, who will then write to you under separate cover to inform you of this, and to provide you with a planning application reference number and the date by which any comments should be received.

Please note that any comment you may wish to make on the planning application will need to be made direct to the City of London

Yours sincerely

Ben Rogers
