

# BEINNEUN 2 WIND FARM

Viewpoint 1  
A87 west of Site

**Existing View**  
This view is from a layby off the A87 as it passes above Loch Loyne and is focussed out along Glen Loyne, to the west and north, and the hills that frame it. Once constructed, Bunloinn will be a prominent feature in views looking across the glen to the north-west. To the east, the land rises away from the road and contains views in this direction, with two telecommunications masts visible on the skyline formed by the nearest hill and turbines at Beinneun wind farm visible over hills just beyond these.

**Predicted Change**  
Three of the proposed turbines would be seen between the masts and the existing turbines and would appear much taller than these but of a similar scale to the Bunloinn turbines, albeit sited closer and in a more elevated position. At night, the aviation lights on these three turbines would be seen in conjunction with the six visible lights on the Bunloinn turbines.

**Cumulative**  
No wind farms in planning would be visible from this location. The scoping proposal at Beinn Bheag would be partially visible and relatively distant amongst forestry and hills to the south-west.

-  90° baseline panorama and cumulative wireline
-  53.5° photomontage
