Beinneun 2 Wind Farm EIA Report

Technical Appendix A5.4: Illustrative Views

Introduction

1. A number of additional visualisations are provided within this technical appendix which supplement the assessment by providing an illustration of the effects mentioned at points within the text.
2. These visualisations have been prepared using TrueViewVisuals on an iPad and show the Development overlaid onto a photograph. They are matched using existing features within the views as 'markers' and provide a reasonably accurate representation of the likely scale and position of the Development within the view, but do not meet the standard visualisation guidance. The approximate width of the view shown in each image is 70 degrees.
3. Illustrative views have been added to illustrate particular effects or issues identified during the assessment process.
4. Photowire views (showing an approximately 70 degree width of view) are provided for:
 - Illustrative view A – Willie MacRae Memorial (219531, 806776);
 - Illustrative view B – Old Military Road near Creag nam Peathrain (219619, 811077);
 - Illustrative view C – Core Path LO11.02 Bridge of Oich to Invergarry by Loch Lundie (229703, 803175);
 - Illustrative view D – B862 south of Fort Augustus (238841, 808382); and
 - Illustrative view E – Wester Mandally (229509, 800701).
5. Wireline views (showing an approximately 40 degree width of view) are provided for:
 - Illustrative view F – Aberchalder Forest (234498, 800006).
