

LANDSCAPE

The landscape proposal

The landscape design is tailored to the site opportunities and constraints. Challenges from overlooking, the busy Victoria Road and the long Kings Road boundary are addressed sensitively with new hard and soft landscaping that creates a safe and welcoming environment. Key features include:

- Venetian panel fencing and pleached trees screen townhouse gardens from the adjoining property
- Fence line continues along Kings Road; gated access ensures privacy for townhouse gardens.
- High quality tree planting will help to screen views of the multi-storey car park to the east
- Boundary planting with high quality trees screen views of Lidl and the multistorey car park.
- Shared space: parking has flush kerbs, with different paving for vehicles
- Combined bin and bike store
- Pergola provides shade and screens views from the new flats above Lidl.
- Creative planting forms "active" and "quiet" zones
- Kitchen garden encourages healthy eating and exercise
- Sustainable drainage "rain garden" will enhance biodiversity
